Numerical id	6
Author	rmilson (146)
Entry type	Definition
Classification	msc 03E20
Synonym	mapping function
Related topic	Invariant
Related topic	Mapping
Related topic	Fixed

Synonym of *mapping* and *function*. Often used to refer to mappings where the domain and codomain are the same set, i.e. one can compose a transformation with itself. For example, when one speaks of *transformation of a space*, one refers to some deformation/rearrangement of that space.
